

Gustavo Silva

Backend Engineer for Ecommerce, APIs, and Integrations

Porto, Portugal | +351 937 115 131 | gustavosjob@gmail.com
linkedin.com/in/gustavosjob | github.com/guuhboss | gustavosjob.com

Backend-focused software engineer with production experience in Adobe Commerce and Magento 2, custom platform logic, REST APIs, data synchronization, MySQL, and integration-heavy ecommerce operations. Focused on maintainable systems that support real business workflows.

EXPERIENCE

Magento Developer - Toogas

MAY 2022 - PRESENT

- Led backend and integration architecture for Navigator Hub, a B2B platform with 20,000+ products.
- Backend delivery across 12 documented production projects in B2B, retail, pharmaceutical, and international ecommerce.
- Built Magento 2 modules, APIs, ERP-ready integrations, and pricing, stock, catalog, and order workflows.

Freelance Web Developer

OCT 2020 - MAY 2021 | PORTUGAL

Delivered web and ecommerce implementations while developing a production-focused engineering practice.

Civil Engineer

JUN 2021 - DEC 2021 | CABO VERDE

Built a practical approach to systems, constraints, planning, international collaboration, and accountable delivery.

SELECTED PRODUCTION WORK

Navigator Hub
